

Dear Hiring Manager,

I am writing to express my interest in opportunities where I can leverage my extensive background across both large international companies and fast-moving startups. Over the course of my career, I have had the privilege of working with leading global brands such as **Nokia** and **BMW**, where I contributed to high-impact projects, including the development of the **next-generation BMW iDrive system** for upcoming vehicle lines. These experiences have sharpened my technical, managerial, and strategic skills, giving me deep insight into delivering cutting-edge solutions in highly complex and demanding environments.

In parallel, I have also thrived in startup settings, co-founding and driving innovation on new products, including **Linklove**, a connected IoT product now successfully on the market. This blend of corporate and entrepreneurial experience has strengthened my ability to work across diverse teams, manage end-to-end product development, and bring ideas from concept to reality with a focus on both technology and user experience.

I am excited to bring this unique combination of experience — spanning large-scale, high-reliability systems and agile, innovation-driven projects — to a new challenge where I can contribute to both technical excellence and business success. I would welcome the opportunity to discuss how my background and proven track record can help support your goals.

Thank you for your time and consideration.

Sincerely,

Bessem
