BESSEM BOUSSELMI

Senior Program & Project Manager | Embedded Systems, IoT & Software Platforms | PMP®

Le Mans, France | Bsmbousselmi@gmail.com |+33 7 76 21 28 54

www.bousselmi.tn | LinkedIn

PROFESSIONAL SUMMARY

PMP® Certified Senior Program and Project Manager with a decade of technology delivery experience, specializing in complex, multi-million-dollar programs. Expert in managing massive scope, coordinating matrixed engineering teams (+20 to +400 contributors), and executing high-impact GenAI pilot initiatives across multiple business units. A validated tech entrepreneur with a successful background founding an officially "**StartUp Act Labeled**" startup, bridging technical engineering depth with executive stakeholder communication and agile governance.

CORE COMPETENCIES

Program & Project Governance | Embedded Systems & Embedded Linux | IoT & Cloud Platforms | Software Release & Change Management (CCB) | CI/CD & Build Pipelines | Agile & Matrix Leadership | GenAI Pilot Delivery | Risk, Budget & Vendor Management | Stakeholder Management

Domains: Automotive · Energy & Utilities · Telecom · Consumer IoT

PROFESSIONAL EXPERIENCE

Sagemcom, Project Manager (Contract)

Oct 2025 – Present

- **Lifecycle Governance:** Direct the full project lifecycle of a next-generation **Embedded Linux** Data Concentrator for Smart Grid / AMI networks, coordinating +20 multidisciplinary engineers across hardware, firmware, embedded Linux, cloud, and validation teams.
- **Scale Delivery:** Manage delivery of a platform designed to support 100,000 smart meter endpoints and utility-scale deployments, ensuring strict adherence to budget, scope, schedule, and quality objectives.
- **AI Initiative Leadership:** Lead a high-impact GenAI pilot initiative involving **+5** business units, driving cross-functional collaboration to integrate AI-powered capabilities into existing operational workflows.

Nokia, R&D Manager (Fixed-term)

Jan 2025 – Sept 2025

- **Department Management:** Managed an R&D department of 16 personnel, overseeing resource allocation, performance evaluations, and the strategic roadmap for telecommunications network elements.
- **Agile Frameworks:** Implemented comprehensive agile frameworks that optimized cross-team coordination and reduced the overall bug-fix lifecycle by 25%.
- **System Stability:** Delivered a 15% measurable improvement in critical system stability by restructuring development priorities and resolving complex integration bottlenecks.

BMW Group, Global Integration Leader (Fixed-term program)
Jan 2024 – Jan 2025

- **EV Program Leadership:** Led the delivery and software integration strategy for the next-generation infotainment system across BMW's new fleet of electric vehicles (EVs), orchestrating dependencies across a massive matrix organization of **400+** developers and testers
- **Release Governance:** Chaired the **Configuration Control Board (CCB)** and led weekly integration planning, effectively mitigating delivery risks and ensuring all major electric car platform milestones were met on schedule.
- **Efficiency Optimization:** Directed the Yocto Build & Release team, overhauling pipeline strategies to generate a **40%** reduction in compilation times, vastly improving organizational efficiency.

Tuito & Géothentic, Senior Software Engineer
Aug 2021 – Dec 2023

- **Technical Deliverables:** Contributed across the full development cycle: requirements, implementation, integration, testing and validation (Embedded C/C++, Linux, Python, Yocto, TensorFlow)

GENICAL, Startup Co-Founder & Product Leader
Jun 2017 – Aug 2021

- **Entrepreneurial Leadership:** Founded an innovative IoT venture and successfully achieved the official ***Startup Act Labeled*** designation in Tunisian StartUp Act Program.
- **Commercial Deployment:** Directed the end-to-end commercialization of consumer IoT products, managing cross-functional R&D teams, financial scope, external vendor relationships

---

EDUCATION & CERTIFICATIONS

Executive MBA, Business Administration and Management, General - *IAE Paris Sorbonne Business School (in progress, expected Jun 2028)*

Project Management Professional (PMP) ® - *Project Management Institute (Oct 2025)*

Computer Engineering Degree – *Mobile Embedded Systems & Software*
Private Higher School of Engineering and Technology **(ESPRIT)**

LEADERSHIP & INITIATIVES

- **Technical Analyst, Mobile World Congress 2025**
- **Lecturer & Trainer, IEEE (2021-Present)**
